

# Nickel Sulphate EN Grade

OMG Nickel Sulphate is made from the same raw materials as OMG's primary nickel metal products. It is characterised by its high purity and ease of dissolution.

EN Grade is a superior product especially manufactured for use in electroless nickel plating formulations, where consistent purity is required to ensure optimum deposition rates, solution stability and deposit properties.

## Packing

25 kg bags on a pallet = 1050 kg net weight

Alternative packing can be provided on application.

## Specification

Ni	22.3%	min
Co	0.0010%	max
Cu	0.0001%	max
Fe	0.0002%	max
Zn	0.0001%	max
Pb	0.0001%	max
Cd	0.0001%	max
Cl	0.0002%	max
Insoluble in H <sub>2</sub> O	0.005%	max
